Water-energy-seafood nexus: eco-innovation and circular economy strategies in the Atlantic Area

ERDF funding 1,734 M€

Total budget 2,312M€

June 2019 | June 2022

www.neptunus-project.eu

The NEPTUNUS project aims to promote the sustainable development of the seafood sector in the Atlantic Area by supplying a consistent methodology for products eco-labelling and defining eco-innovation strategies for production and consumption under a circular economy approach. This project will provide key actions for resource efficiency based on life cycle thinking, incorporating producers, policy makers and consumers in the decision making process.

Project funded by the Interreg Atlantic Area Programme through the European Regional Development Fund
